
RE: Application for Internship Opportunity – 2025 NSSF Internship Program

Dear Sir/Madam,

I am writing to express my interest in the 2025 Internship Program at the National Social Security Fund (NSSF). I am currently awaiting graduation in July or August 2025 with a Bachelor's Degree in Information Technology from Murang'a University of Technology, and I am eager to apply my skills in a professional environment where I can also grow through mentorship and real-world experience.

During my academic and practical journey, I have participated in two professional internships. At Almi Group Limited, I worked as a Volunteer Software Developer where I contributed to full-stack development projects using technologies like TypeScript, Next.js, Flask, and SQLAlchemy. I also participated in database optimization and application performance improvement. Additionally, at Affam Limited, I served as an Attachee and gained experience building RESTful APIs using .NET Core, Flask, and Django, as well as designing responsive interfaces and optimizing database queries with PostgreSQL and MySQL.

These experiences have equipped me with strong problem-solving abilities, keen attention to detail, and practical knowledge of modern software development practices. I am confident that my technical skills, combined with my willingness to learn and adapt, would make me a valuable addition to your team during the internship period.

I am excited about the opportunity to contribute to NSSF's mission while gaining hands-on experience in a reputable institution. I have attached my CV for your consideration and would welcome the chance to discuss how I can support your objectives during the internship.

Thank you for your time and consideration.

Sincerely,

Emmanuel Muuo
